

Many transaction types fall into what the Card Associations consider high risk. Cynergy Data provides secure and reliable payment processing services for many High Risk Merchant Accounts.

So, while many other processors say "NO," we say "YES" to earn your business.

Eligible Business Types:

If your business falls within the following high risk categories*, a Cynergy Data representative will work with you to determine eligibility in our payments program.

- Airlines
- Travel
- Adult, Dating and Escort
- Outbound Telemarketing for most product lines (some exclusions)
- TMF (including Internet)
- Online Membership Clubs (with the exception of travel clubs)
- Scholarship Programs
- Diet Programs (other than continuity programs)
- Continuity Merchants (who meet specific criteria)

* All accounts are subject to approval. Some restrictions apply.

More Value When You Choose Cynergy

LUCY™ Gateway. With LUCY, you can count on secure, fast and reliable payments processing for virtually every payment type and from any channel (in store, MOTO or Internet). Built with open architecture and a number of integration options, LUCY provides the utmost in flexibility.

Plus, LUCY includes robust, built-in security measures, including Secure Socket Layer (SSL) encryption and a 24/7 monitored network.

Vimas. Cynergy understands that many high risk businesses operate online. As a Cynergy merchant, you'll have quick and convenient access to an online wealth of information via Vimas - our state-of-the-art account management system. Archives of merchant processing statements, settlement totals, instant notification of chargebacks, and much more - it's all here.

Ready to Get Started?

As long as your business falls within one of our approved categories, we will work to have your merchant account approved and set up as quickly as possible. So you can start accepting payments quickly and efficiently and with less hassle. Check with your Cynergy Data representative for details!
