

As common as gift cards are in today's marketplace, they can still help fuel the success of any business. And through Cynergy Data's partnership with Secure Payment Systems, a leading gift card provider, you receive a flexible gift card program that provides an array of options - turnkey and suitable to fit your business needs.

### Minimal Investment/Maximum Value

Choose from among several bundled options, or we'll work with you to combine programs or design customized cards.

### Customize Cards and Create Instant Recognition

Give your business a more personal edge with our customizable cards. Submit your own artwork, including your company logo in one of our approved formats, and receive a unique marketing piece and payment type - all in a single card! Custom card holders, hangers and acrylic displays are also available to complement your cards.

### More Options for Every Merchant

Do you need a combination of semi-custom and custom cards? If so, we can also work with you to combine programs. So you can receive custom and semi-custom cards for one, low flat monthly fee. Plus with Cynergy's gift card program, you can activate your own cards, check balances and receive an array of reporting options.

To view our designs and more information about our options, please visit [www.securepaymentsystems.com](http://www.securepaymentsystems.com).

### Semi-Custom Cards - Completely Turnkey

Through our semi-custom offering, you can select from 20 colorful, pre-packaged designs and ten different fonts. In addition, each package includes your choice of wire or acrylic displays for optimal placement near the point of purchase - complete with holders and envelopes.
