

As Cynergy Data's proprietary gateway, LUCY provides reliable, secure and affordable state-of-the-art integrated payment processing services. As an all-encompassing gateway, LUCY provides processing for virtually all payment types including credit cards (bank and non-bank) with signature capture, PIN-based debit, checks, EBT services, fuel and fleet cards, and gift cards.

## Support for All Payments

Whether you accept payments in store, over the phone or via the Internet, LUCY routes your payments seamlessly and efficiently from multiple payment devices and configurations – from the point-of-sale, over the Internet, via wireless terminals and more.

## Unsurpassed Security

Maintaining cardholder security is vital to every business. That's why LUCY was designed with built-in data security measures to include intrusion detection systems, file integrity systems, SSL encryption and a 24/7 monitored network. That means you will never have to worry about costly data breaches or being out of compliance with the Payment Card Industry Data Security Standards.

Best of all, because LUCY is Cynergy Data's proprietary gateway, we are continually monitoring our product and enhancing functionality to ensure it meets and exceeds the needs of our merchants.

## With LUCY, You Can:

- Process payments in 2-3 seconds from swipe to receipt.
- Complete reconciliation and settlement faster and more accurately.
- Receive all the tools needed to help integrate your software seamlessly with LUCY, including an Applications Payment Interface, a software developers kit and integration support. Plus, LUCY has an out-of-the-box integration solution for leading POS applications QuickBooks and Microsoft's Retail Management System. Just install and configure our Plug-In modules and begin processing in minutes.
- Connect all workstations from a single, integrated IP connection, saving money on unnecessary telephone lines.
- Have direct, online access to account information, transaction details and summary records, and use this information to create customizable, real-time reports.
- Receive technical support 24/7.

## Ready to Get Started?

If you are not currently using a gateway, a Cynergy Data representative can help you learn more about how LUCY provides an affordable, flexible payment system suitable for any environment.
